

More about TRINITY PAK

The energy frequency of the *Trinity Pak* when worn, often allows **more complete perception** than usual – almost as if one sees into the heart of things, instantaneously. The *Trinity Pak* **releases and erases the negative memory programming stored in the cells of the body as incomplete emotional trauma**. It aids in bringing that trauma painlessly into fruition, as completed perception floats into the Mind's eye, dissolving all previous resistance. This opens avenues to greater awareness, through more potential release. (Do remember the only true difference between all human beings on this planet is the degree of conscious awareness.)

When the *Trinity Pak* is worn during a session of body manipulation, adjustment, or massage, the work is aided in that the **“fix” remains more permanent and will not rapidly fade away**. The *Trinity Pak* when worn next to the skin serves as a protective barrier from external negative human energies.

Areas of application for wearing may vary for each individual. When possible, dowse, muscle test, check with pendulum, or meditate with the Higher Self to find the most ideal placement area for the greatest benefit to/for the Self.

Suggestions for APPLICATION

- ✧ From 6pm-6am, place *Trinity Pak* on the 7th cervical area directly below the back center of the neck 2 separate times for 5 minutes.
- ✧ For **Women**, wear as a pendant touching the skin in the **thymus area** or tucked into a bra cup.
- ✧ For **Men**, secure with a safety pin inside the **mid-center back of trousers** or under shorts if possible so it touches the skin in the small of the back.

“The initial tests I have done on Lepidolite confirms a harmonic relationship to the Triple Warmer meridian, which governs the glandular functions of the body, and also the Circulation Meridian, which governs the pericardium of the heart and the circulation of the blood. I agree with Jerry Fredenstein that Lepidolite is an excellent “fertilizer” for plants and I would respectfully add that it also appears to be an excellent “fertilizer” for the glands and blood of the human body.

I'm sure you will find this next tidbit of interest. The Circulation Meridian of the human body is essentially an antenna that links the energetic and physical body to the Universal Pulse rate of 72 beats per minute, which physics confirms as the fundamental vibration common to the microcosmic and macrocosmic worlds. Lepidolite obviously strengthens the ability of this antenna system to receive the Universal Pulse. This makes plants and people bigger and smarter!

The potential effect on the Triple Warmer meridian and the glandular system appears to put the system into a state of balance, which requires less energy to efficiently operate a “bioenergetic machine.” Douglas Benjamin, October 2010

Trinity Pak

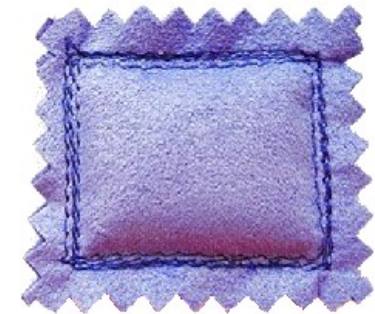

CONTENTS: 3 Sodium Compounds and 3 high lithium-content stones: Lepidolite, Amblygonite and Pala Pink Tourmaline.

Manufactured by: Lithium Labs Ltd.

Available from: www.energyandvibration.com
Phone: 919-563-1600 ~ Fax: 919-563-1522
Email: info@energyandvibration.com

Trinity Pak

for Balance and Healing

*Information
and
Instructions for Use*

What is the TRINITY PAK?

The *Trinity Pak* is made up of:

Three Lithium Crystals:

- * **Lepidolite** (contributes largest portion)
- * **Amblygonite**
- * **Pala Pink Tourmaline** (from the famous Pala, CA mine)

Three specific Sodium Compounds

They are carefully blended together in a perfect ratio for balance and healing. The blended material is then placed in a 1 3/4" square lavender piece of fabric and stitched closed with blue/violet thread. The final product resembles a little lavender pillow.

CARE: DO NOT LET YOUR TRINITY PAK COME INTO CONTACT WITH WATER OR HUMIDITY!!! Since the Trinity Pak contains Sodium compounds, which contain salt, it is easily affected by HUMIDITY and WATER. When not using, **ALWAYS** keep sealed in a protective ziplock plastic bag.

More about the CRYSTALS

Lepidolite (3-5% lithium)

The GRAND BALANCER

Reduces worry and stress, soothes and balances emotions, connects heart and brow chakras and drains off excess electrical energy. Good placed in bath. Plants irrigated with water charged by strapping a stone on the pipes have produced larger crops and charged water has been shown to help heal some types of skin cancer. **Caution: do not place stone directly in water when making an elixir for consumption; rather, place close to container of water. Do not place near flame as fluorine gas is produced.**

Amblygonite (8-10% lithium)

activates the physical body's ELECTRICAL SYSTEM

Helps remove pent up emotions, activates electrical system and transmutes negative energy. Tape on back of neck or pinch one in each hand with thumb and index finger for headaches or tape on thymus when working on computer terminal. **Opens all chakras and meridians and rebalances all energy levels of the aura.** Makes structured water in 15 minutes. **Caution: do not put stone directly in water if making an elixir for consumption; rather place near container of water.**

Pala Pink Tourmaline (8-10% lithium)

2nd highest conductor of ELECTRICITY

Conducts electricity via striations. Most effective if naturally terminated. Applying pressure to a continuously heated stone will direct an electrical current. Useful placed on blocked meridian point or using light pressure on blocked meridian point with the terminated end of crystal. Documented as the **second fastest conductor of electricity next to the human brain!**

How does the TRINITY PAK work?

PINEAL GLAND

In the center of the brain, there is an area called "**The Cave of Brahma**" by Sanskrit texts which refer to this area as the **Seat of resonance with Source**. It is an ocean of cosmic vibrations and is responsible for all communication with SOURCE. It is the **Heart ♥ of the Brain**. The pineal gland was also called "**Seat of the Soul**" by French philosopher **Rene Descartes** and **Alice Bailey**.

This cave is the **3rd ventricle** of the brain. The **pineal gland** hangs from the roof of the completely dark cave that is the 3rd ventricle. It is constantly bathed in **cerebrospinal fluid (CSF)**.

Close to this area is manufactured the **CSF**, which **washes the whole brain and spinal nerves**. The **chemical pH of CSF determines the resonance**, and the *Trinity Pak* has the **ability to balance the pH of CSF!** This brings forth balance and the potential for healing the entire body.

ELECTROMAGNETIC POLLUTION

Studies have shown that the *Trinity Pak* when placed close to the body **protects the body and field (aura) from electromagnetic pollution** such as wireless devices, cell phone towers, and TV and radio towers. It acts not only as protection, but allows your body and field to once again **resonate with the Schumann Resonance frequency 7.83 hz found in all of the natural world, which restores health and wellbeing.**
